

LING 583 – PROJECT REOPRT

PROJECT #1 – Conspiracy Theory

Data:

Shape - (17155, 2)

Columns – date (in type datetime[ns]), text (in type object)

Date Range - 01-01-2015 to 17-02-2023

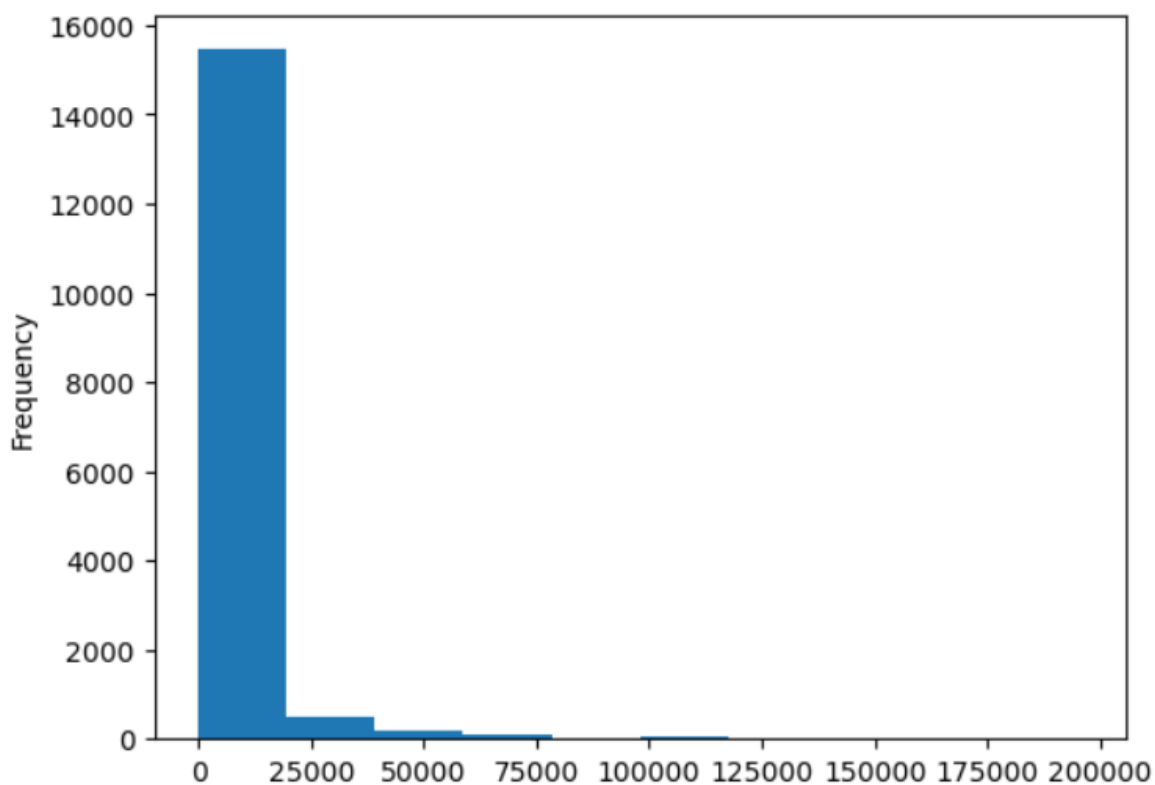

Feature Engineering:

len – calculates the length of string in text

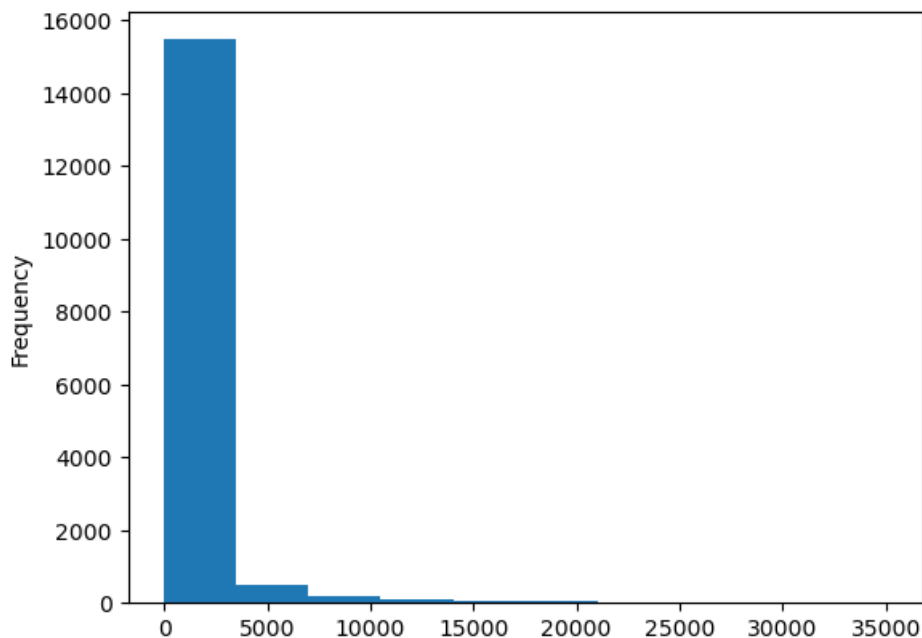

word_count – calculates the number of words in text

Observations:

On plotting a *histogram of len*, we observe that length of text is mostly less than 25000. However, there are outliers that go as high as > 100000.

For word_count, the histogram shows that the number of words in the text is mostly less than 2500. However, the text with maximum number of words has **35024 words**.

```
0]: ##### Finding text with maximum number of words #####
df["word_count"].max()
```

```
0]: 35024
```

Only 10% of text has less than **31 words** and 90% of text has less than **1960 words**.

```
df[["len", "word_count"]].describe(percentiles=[.1, .5, .9]).T
```

	count	mean	std	min	10%	50%	90%	max
len	16342.0	5050.243973	13077.926887	1.0	174.0	1328.5	11014.3	195830.0
word_count	16342.0	893.690062	2313.954603	1.0	31.0	235.0	1960.0	35024.0

Data Cleaning:

- Removing leading spaces.
- Removing emojis and any other component that is not a word or a number.

```
df['text'] = df['text'].str.lstrip()
```

```
df['text_clean'] = df["text"].str.casefold().str.replace(r"(\W|\d)+", " ", regex=True)
df.head(5)
```

	date	text	word_count	len	text_clean

Term Extraction:

Spacy model "en_core_web_sm" has been used for term extract along with the *Matcher* feature it provides. We are trying to detect a pattern that begins with an adjective or a noun followed by singular/ plural common nouns or proper nouns along with hypen.

** From the extracted terms it is noticed that there are terms in text than do not contribute to our analysis like

```
[(('sa', 'sa', 'sa', 'sa', 'sa', 'sa', 'sa', 'sa', 'sa', 'sa'), 139),
 (('u_r_l',
  'u_r_l',
  'u_r_l',
  'u_r_l',
  'u_r_l',
  'u_r_l',
  'u_r_l',
  'u_r_l',
  'u_r_l',
  'u_r_l'),
 26),
 (('amp', 'amp', 'amp', 'amp', 'amp', 'amp', 'amp', 'amp', 'amp', 'amp'), 15),
 (('woo', 'woo', 'woo', 'woo', 'woo', 'woo', 'woo', 'woo', 'woo', 'woo'), 10),
 (('jidf', 'org', 'jidf', 'org', 'jidf', 'org', 'jidf', 'org', 'jidf', 'org'),
 7),
 (('cdc',
  'novel',
  'coronavirus',
  'ncov',
  'real',
  'time',
  'rt',
  'pcr',
  'diagnostic',
  'panel'),
 7),
 (('hahahahahahahahaha',
  'hahahahahahahahahahaha',
  'hahahahahahahahahahaha',
  'hahahahahahahahahahaha',
  'hahahahahahahahahahaha',
  'hahahahahahahahahahaha',
  'hahahahahahahahahahaha',
  'hahahahahahahahahahaha',
  'hahahahahahahahahahaha',
  'hahahahahahahahahahaha'),
 6),
```

So, we invoke a second round of **Data Cleaning** that removes words like

List of words to **replace**

```
words_to_replace = ["u_r_l", "amp", "woo", "jidf", "org", "sa"]
```

This is followed by term extraction using **C values** with **theta = 100**. The list of ten most common terms and 20 least common terms has been provided below.

```
terms.most_common(10)
```

```
[(('don', 't'), 24262.75),
 (('didn', 't'), 13016.9),
 (('i', 'd'), 8614.692307692309),
 (('doesn', 't'), 8402.2),
 (('submission', 'statement'), 5046.0),
 (('isn', 't'), 3923.0),
 (('wouldn', 't'), 2452.0),
 (('couldn', 't'), 2247.5),
 (('many', 'people'), 2245.0),
 (('wasn', 't'), 1782.0)]
```

```
terms.most_common()[-20:]
```

```
[(('entire', 'thing'), 103.0),
 (('heart', 'issues'), 103.0),
 (('world', 'country'), 103.0),
 (('last', 'months'), 103.0),
 (('weird', 'shit'), 103.0),
 (('t', 'degree'), 103.0),
 (('iraq', 'war'), 103.0),
 (('anti', 'semitism'), 103.0),
 (('code', 'words'), 103.0),
 (('single', 'time'), 102.0),
 (('tucker', 'carlson'), 102.0),
 (('american', 'citizens'), 102.0),
 (('private', 'sector'), 102.0),
 (('time', 'frame'), 102.0),
 (('real', 'person'), 101.0),
 (('lol', 'lol'), 101.0),
 (('huge', 'difference'), 101.0),
 (('serious', 'question'), 101.0),
 (('good', 'place'), 101.0),
 (('smoking', 'gun'), 101.0)]
```

Tokenization:

We create tokens from text data using Spacy pipeline incorporating the terms as created above.

```
[56]: ##### tokenizing data #####

df["tokens"] = [[t.norm_ for t in doc if not t.is_space] for doc in mwt.pipe(tqdm(df['text_clean']))]

100%|██████████| 16342/16342 [03:31<00:00, 77.43it/s]

[57]: df['tokens'].head()

[57]: 0 [your, post, has, been, removed, because, it, does, not, contain, a, submission statement, if, you, think, you, received, this, message, in, error, or, if, you, have, subsequently, added, a, submission statement, please, contact, the, mods, through, modmail, and, include, a, link, to, the, comment, with, your, submission statement, this, is, a, bot replies, and, pms, will, not, receive, responses]

Name: tokens, dtype: object
```

Topic Modelling – LDA:

We have used the **LDA model** from **tomotopy** with the following features

```
k = 20
min_df = 100
rm_top = 60
tw = tp.TermWeight.ONE
alpha = 0.1
eta = 0.01
tol = 1e-4
```

We want the cleaned and tokenized texts to be modelled under **20 topics** where words occur in at **100 times** across the data and **remove the top 60 words** which do not make any significant contribution to our analysis.

The model training and the top words removed are shown below

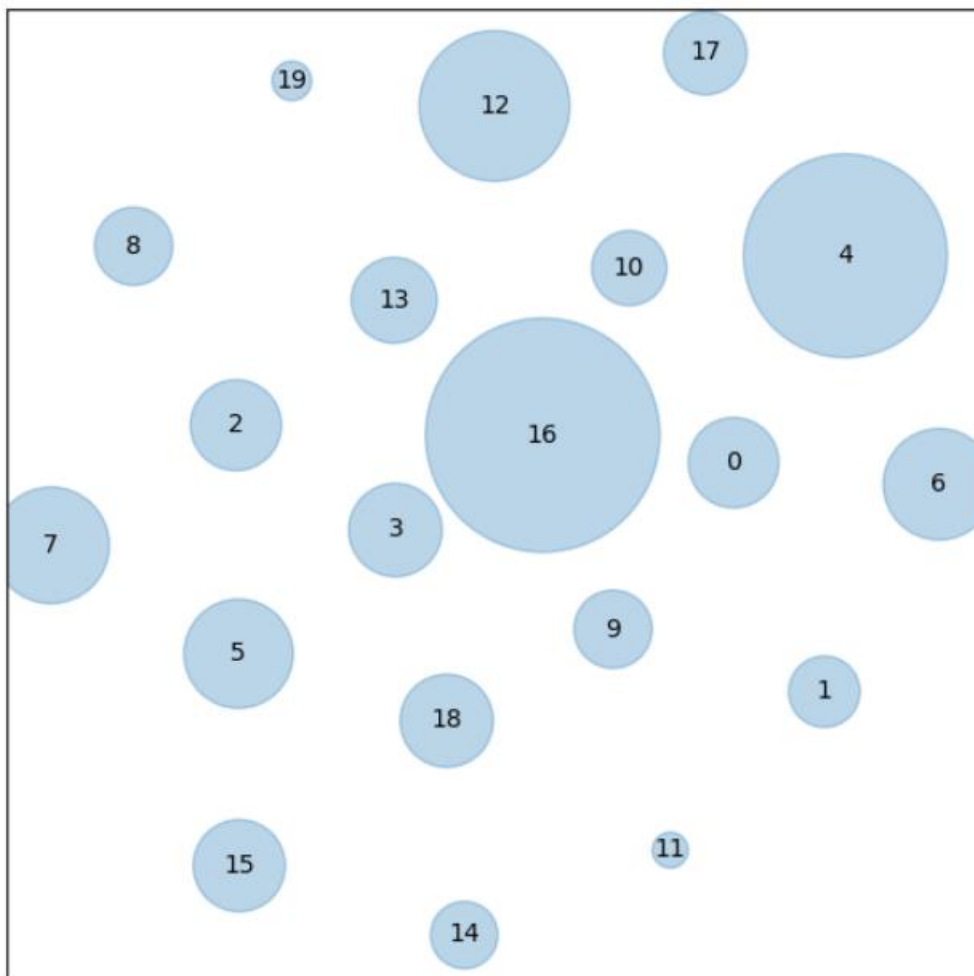

```
0 LL = -10.9233
50 LL = -8.9924
100 LL = -8.8709
150 LL = -8.8022
200 LL = -8.7542
250 LL = -8.7232
300 LL = -8.6990
350 LL = -8.6842
400 LL = -8.6702
450 LL = -8.6571
500 LL = -8.6491
550 LL = -8.6412
600 LL = -8.6348
650 LL = -8.6293
700 LL = -8.6238
750 LL = -8.6207
800 LL = -8.6170
850 LL = -8.6118
900 LL = -8.6129
Done!
CPU times: user 6min 42s, sys: 560 ms, total: 6min 43s
Wall time: 3min 30s
```

```
##### List of words removed #####
```

```
print mdl.removed_top_words()
```

```
['the', 'to', 'and', 'a', 'of', 'i', 'it', 'you', 'that', 'is', 'in', 's', 'they', 'this', 'are', 'for', 'not', 'on', 'have', 'be', 'with', 'was', 'but', 'if', 'as', 'what', 't', 'or', 'people', 'just', 'all', 'he', 'can', 'we', 'so', 'your', 'like', 'about', 'do', 'there', 'from', 'will', 'at', 'no', 'me', 'by', 'would', 'who', 'their', 'don', 't', 'an', 'my', 'one', 'how', 're', 'up', 'has', 'because', 'think', 'out', 'more']
```

The twenty topics are plotted on a 2D space as below:

Observations:

The topics are well distributed in the 2D space with no overlap between them. Topics 16, 4, 12 and 17 seems to have a higher share of text.

Clustering:

- The “text” data has been cleaned to remove emojis and unnecessary text and punctuation except “.” as required for sentence tokenization.
- We have removed all data that has **less than 5 words**.
- We have removed data that begins with **"your post"** or **"please contact"** to remove reddit submission messages.

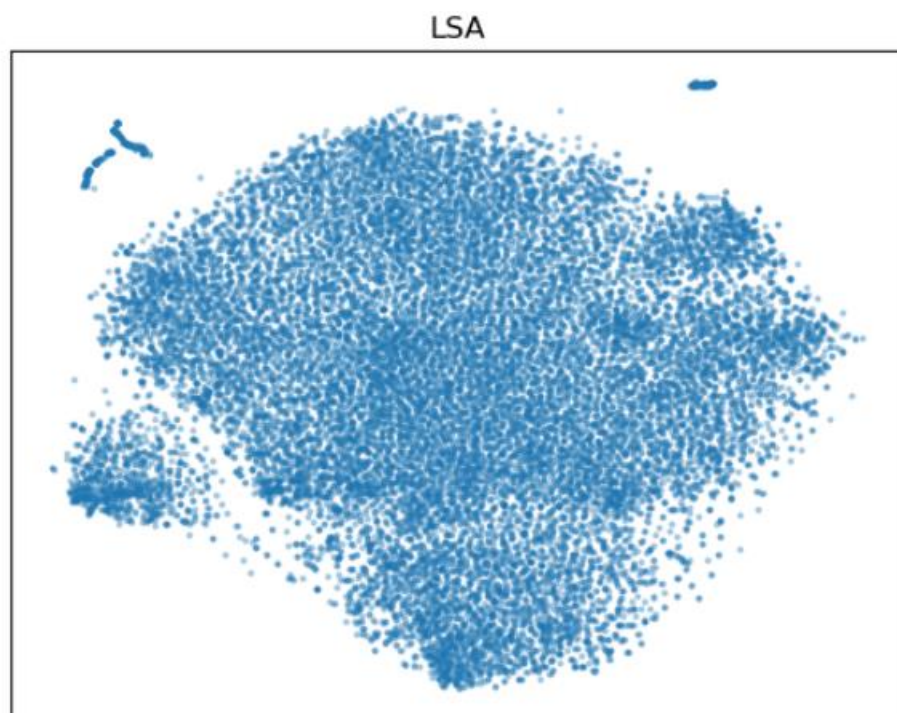

Sentence Splitter:

We have used sentence splitter from Spacy to take a **batch of 5 sentences** at a time from each post.

	text
0	yup. ndt is a clown. not sure why anyone takes him seriously. same with bill nye. and the irony of starting with the idea of walls being something he d be opposed to.
1	u_r_l u_r_l i m pretty sure jesus wouldn t vote for a jew considering they crucified him. maybe he is a gluten for punishment though.... the video s only two minutes long. never have i been hit by this many downvotes this quickly watch it and a whole other perspective on the u.s. transformation to sodom and the transferal of war on christianity to a war on islam may begin to form. there is a commonality and those who speak of it are demonised.
2	the ridiculous tweet made by the black sci fi guy u_r_l
3	the russian kgb radicalized oswald and set him loose. this was kept under wraps after kennedy s death to prevent the very real destruction of the entire earth. lee harvey oswald defected to the ussr married a russian national and returned to the us a few years later with his wife and the us government was like oh hi marine welcome back no worries about defecting to the ussr . oswald was absolutely cia. i mean.
4	if i was the cia and i was framing someone as a patsy for assassinating the president i would use a former military member with ties to russia and i would manufacture a document that says said person met with the fucking kgb assassination department . scott adams has a personal rule of thumb that if the explanation is too on the nose it s likely manufactured bullshit. u_r_l also according to the tv show . . i think rule did the soviet union assassinate kennedy funny how many conspi...

SVD:

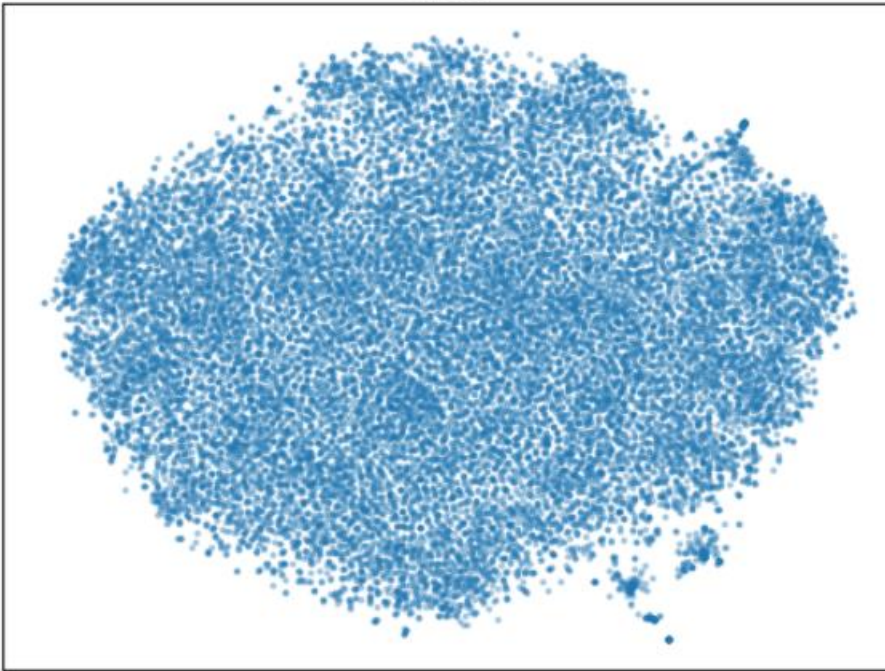

We have used **TruncatedSVD** to transform the data into a **20 dimensional vector**.

SPACY:

We have used the **"en_core_web_lg"** from **Spacy** to transform the cleaned text into a **300-dimension vector**. Further dimension reduction has been done using TruncatedSVD to bring it down to 20 dimension.

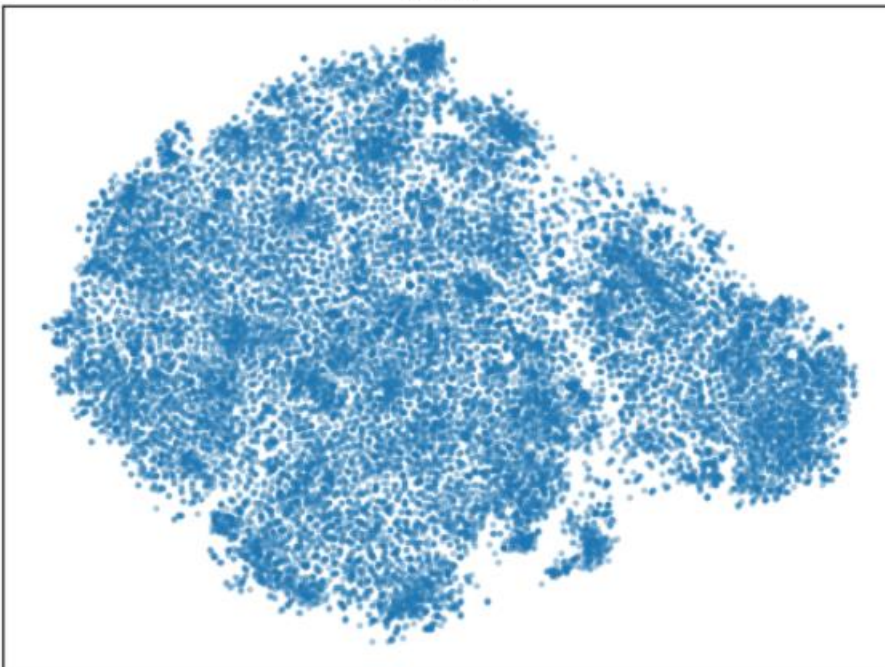

spacy

SBERT:

Dynamic embedding was done using SBERT sentence transformer from "**all-mpnet-base-v2**" to obtain a **768 dimension vector**. . Further dimension reduction has been done using TruncatedSVD to bring it down to 20 dimensions.

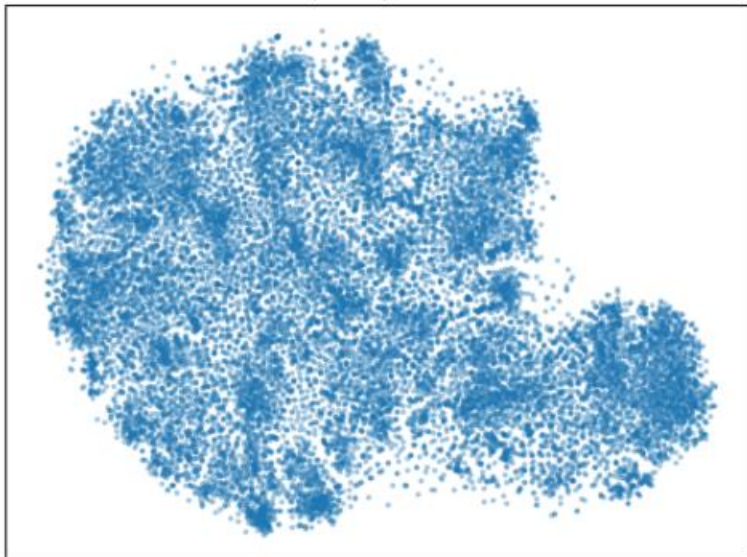

SBERT

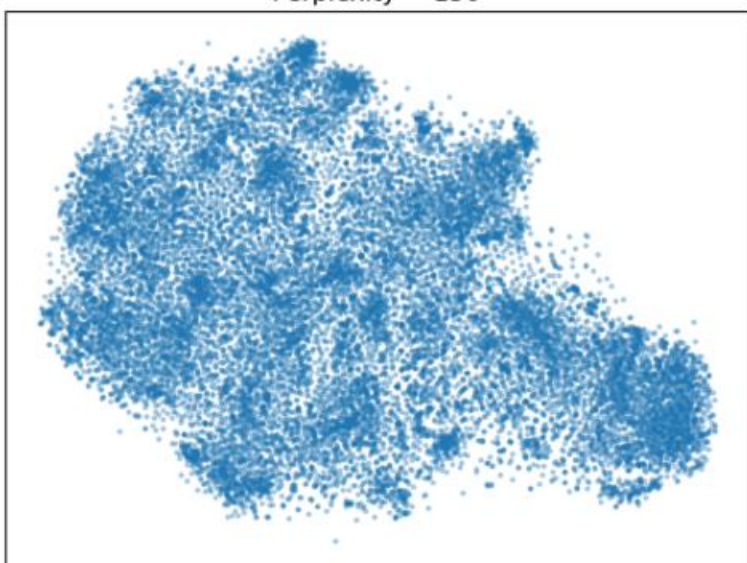

PERPLEXITY:

As seen above, with Perplexity=50, the SBERT model clearly produces better results as compared to LSA and Spacy. Thus, we tried to plot the vector projections with perplexity 100, 150 and 200, to compare results and select best model for clustering.

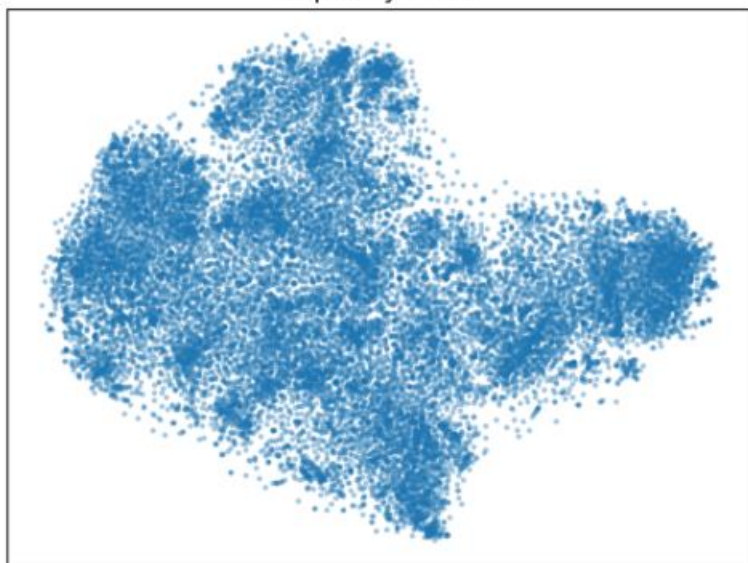

Perplexity = 100

Perplexity = 150

Perplexity = 200

Perplexity of 200 seems to provide optimal results for the analysis.

HDBSCAN CLUSTERING:

We have considered a **cluster size of 20** and fitted the SBERT vectors.

```

Highlighted terms in each cluster after incorporating c-values gives us the following topics as focus

CLUSTER	TOPIC
0	Evolution theory
1	Presidential Election
2	Ukraine War
3	Racism (Black Lives Matter)
4	Voter Fraud (Presidential Election)
5	Racism
6	Israel Crisis
7	Lab?
8	James Comey(wikileaks and Clinton emails)
9	Reddit and Conspiracy
10	Abortion Laws
11	Government (Capitalism vs Socialism)
12	Covid 19 (Delta Variet)
13	Grammy Awards
14	Religion - Christianity
15	Chemicals?
16	Random
17	Random
18	Falt Earth

Results :

Through the above analysis the key topics identified for the conspiracy theories are as follows

1. Presidential Election Voter Fraud

???★ (4) "so you agree the biden win in ga is clean and should be accepted i think you re agreeing with me but not sure why you sound so hostile. i m not taking about pa though biden won fair there too. pa had observers and have plenty of republicans in government there too. democrats push forward legislation to protect elections and republicans refuse to pass it. it s funny that republicans only care about election security when they lose but dems continued after a landslide win in see the warren dominion posts surely there s another one posted recently hahahahahahaha jesus pretty soon you re going to move these goalposts off the edge of the flat earth."

2. Racism in America

Clusters

???★ (1) "have you forgotten where we are trump did clearly condemn white supremacy during the debate show me his quote where he clearly did that. he just said sure and when asked for clarity he did not condemn white supremacy. did biden get asked simultaneous questions too no so it wasn t the same question and the questions were not fine. yet in the end trump did clearly condemn white supremacy during the debate and saying he didn t was a lie. he asked biden almost exactly the same question but about left wing violence instead."

???★ (1) "trump has condemned white supremacists constantly. he had just proposed a plan before the debate to label the kkk terrorists and make lynching a hate crime. its a fake news talking point that he doesn t condemn racists. no i m not. the context was wallace asked a question made a request and trump hemmed and hawwed and didn t answer with an acceptable answer straight away and only replied about the proud boys after an attempt to avoid the question request altogether."

???★ (1) "that s why i said biden is a racist too. i don t like biden. fuck biden. he s trash. but yeah there are absolutely quotes of trump being racist trash too."

3. Trump Controversaries – Jeffery Epstein Scandal

???★ (8) "trump and epstein were good friends. hell trump wished maxwell well after her conviction. dudes a total pedo of course the government is complicit in allowing epstein s clients get away... they re one and same after all who killed epstein u_r_l chute.com video daz qsjt hyy one of them was just made the president s clean energy senior advisor. the enemy will go unpunished unless we personally punish the enemy all governments must fall all corporations must burn. interesting that instead of checking you decided i lied."

4. Evolution Theory vs Religious Beliefs

Clusters

creationist i don t know. but he believes severely lacking theory should be taught as equal to evolution. and creationists historically fit that description pretty well."

???★ (0) "i enjoy debating with religious folks especially creationists and pence is using a very common tactic that shows his ignorance evolution is just a theory that he thinks stands on as much or less ground than his religious beliefs. he doesn t understand what a theory is in the scientific community. it s a testable falsifiable claim that is rigorously tested and stands up to any and all scrutiny presented to it. the bible falls apart quickly under scrutiny. creationism is not a theory."

???★ (0) "if you can t use common sense and personal experience to infer what that means then that s on you. i don t see him or his staff coming out to fight any of the infobytes calling him a creationist though. i have seen him talk about god creating the world.. he believes the bible and he won t say evolution is real. that s enough for me. it shouldn t be enough it just means that he entertains a higher design what some people call god means something different to each person so you can t exactly say that believing in a higher power makes someone an asshole."

???★ (0) "and it matters a lot actually this is how you stay informed and weigh how strong the facts are. an infobyte repeated to you hundreds of times on reddit and by peers and in media yeah you should care about how strong that claim is. turns out this one is weak as fuck. mike pence may be a piece of shit i dunno but he sure as hell isn t a die hard creationist because that kind of person would proudly tell the world. it wouldn t be some sketchy out of context opinion piece conclusion based on a jump in logic."

???★ (0) "timestamp to pence saying he doesn t believe in evolution. because that is a main ingredient in defining someone as a creationist. otherwise you are just making assumptions and then broadcasting your assumption as a fact and that is dishonest and wrong. if he was a creationist then when asked about evolution he wouldn t dodge the question he would outright say he doesn t believe in it. ask anyone who isn t a creationist if they believe in evolution."

5. Government – Socialism vs Capitalism

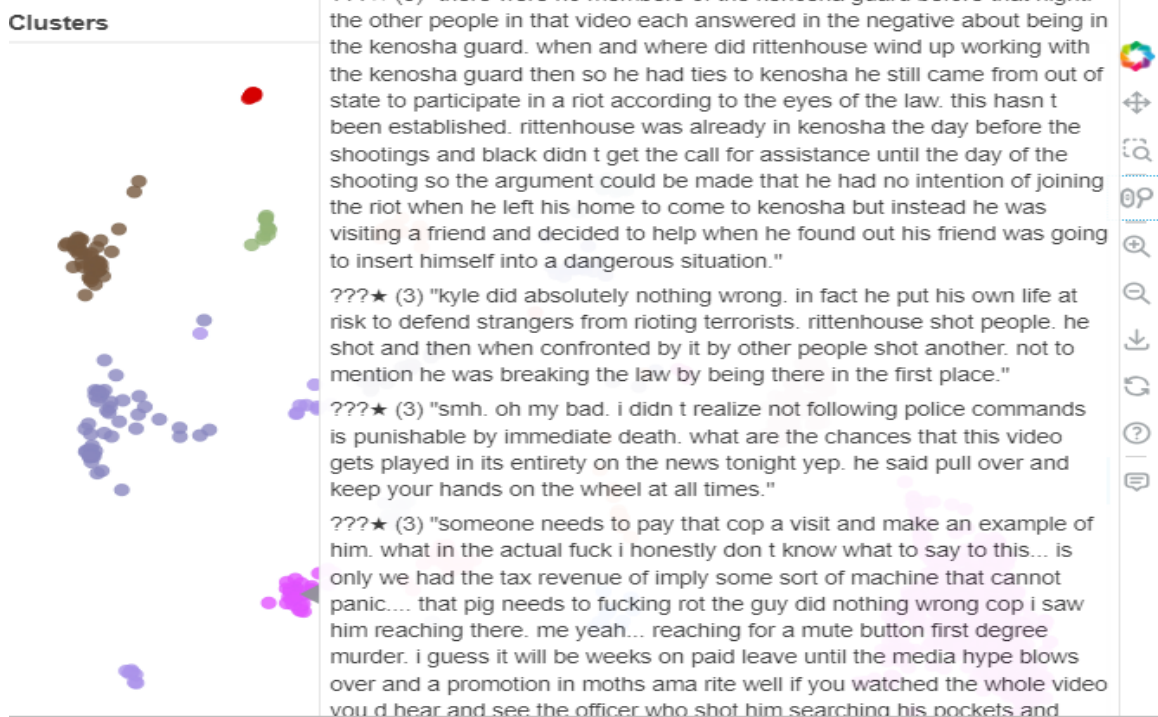

considering no st world country currently runs on socialism r than china i will have to disagree... there are : but to be fair i would much rather be living the us than ons and those with the means to do so will always est of their ability. they will write the laws because they is and if they can t... they will pick their shit up and in drain something universal to socialist revolutions. deregulation is what s needed. the purpose of like the rich richer and the poor poorer."

ed if a capitalist country has a centrally planned corporate welfare lobbyists in every corner of oric military industrial complex negative interest rates anywhere in the world the most undecipherable laws d is ruled in secrecy by an unaccountable oligarchy id. but then it has nothing to do with economic e with you on this liberty leads to prosperity prosperity icy and complacency causes tyranny. i m not sure how cycle. perhaps strong spiritual grounding and placing ad of utility the price of liberty is eternal vigilance J re right but he should have had a voice in the

10. Abortion Laws

on in a coma is different because that person has life before the coma and can continue where they left off if t. a fetus does not have any previous experience inity was lost in an abortion. as soon as the fetus is able ling of pain that is the cutoff for when i believe a woman wed to have an abortion. where do you draw the line you can t reason with this sub. lollll."

life or not. if it s not there is nothing to argue about. ted they do not know when life begins. therefore neither e side of caution. the life of the mother is a medical

in t know. and the entire debate changes based on that ot a life pop abortion pills like candy. no one cares. what make it would be like having a tumor removed."

ial. an embryo is a clump of cells sucking the life out of it s performed in the united states happen at or before the on still an embryo not a baby. . of abortions happen cs still an embryo."

i cannot feel pain until around the week mark because at i doesn t exist to send pain signals from nerves around in where pain is experienced. less than of abortions

11. Food Safety

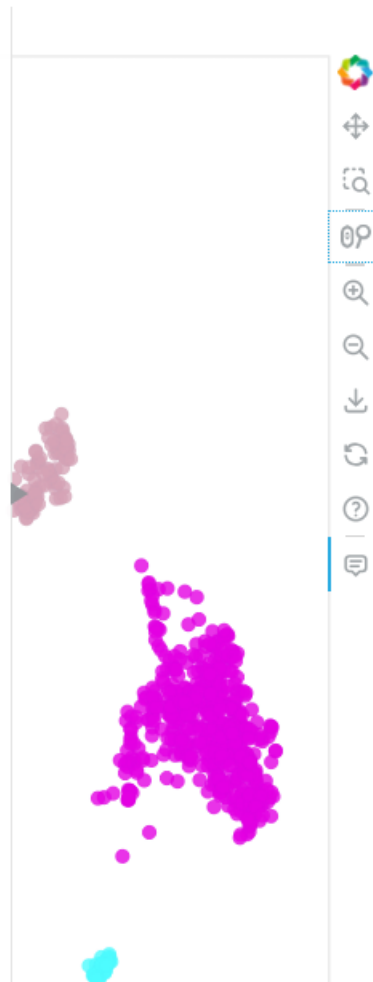

thout chlorine. i need to try this i've been off fluoride over a year and haven't noticed a difference. i have a reverse osmosis system at my abode. extremely worth it why wouldn't it belong in here if it's true and drink rates instead of fluoride essential water is fluoride free alkaline . and had added minerals."

??★ (15) "sodium fluoride used to be sold as rat poison. even toothpaste boxes will warn you to call poison control if you swallow it. boron is supposed to be able to remove fluoride from your body. i add it to my purified drinking water. piggybacking your comment."

??★ (15) "hours round trip to a natural spring to get my water. i take of use gallon bpa free blue water jugs and fill up my van yep it comes with a poison label on it for a reason i had this the first time i tried to get off fluoride. i then tried doterra toothpaste and haven't had any sensitivity issues at all. aluminum free deodorant is also essential doterra. check em it."

??★ (15) "easily the best fluoride free toothpaste ever. good aluminum free deodorant as well awesome essential oils and blends. can't commend them enough reverse osmosis. they filter almost everything including fluoride. they're just big water filters you can bring your bottles and fill them relatively cheaply."

??★ (15) "idk if it's just in my mind but my teeth feel different. as for cognitive spiritual etc haven't noticed any difference. has anyone who has been able to be fluoride free tell us if they noticed any changes in their mental state and overall well being hey the person you're replying to has decided that they know what's best for everyone else so do what they say what toothpaste do you use berkey products aren't nsf certified which is a standardized test to ensure it filters out what it says it does. brita and ir are nsf certified but they don't filter out fluoride. u_r_l uhh care to post link to any of these studies and understand that correlation is not causation what we got a berkey a few weeks ago along with the add on

12. Anti – Maskers (COVID 19)

???★ (7) "the uk government advises no kids to wear masks younger than something like unless they can't keep the m away or have underlying health conditions like cancer or cystic fibrosis. both of which could be life threatening if they even get a cold. for context i have a month old and would never make her wear a mask. secondly masks are doing literally none of what you said. the right mask doesn't restrict air flow i wear wore them for work before the pandemic for full hr shifts most expressions are in the eyes when i smile at her with a mask on she knows my girl doesn't get scared when i wear a mask."

???★ (7) "my doctor told me the same thing. masks are theater and actually can be harmful in some cases. facts. i refuse to wear masks in stores. fuck that shit haha."

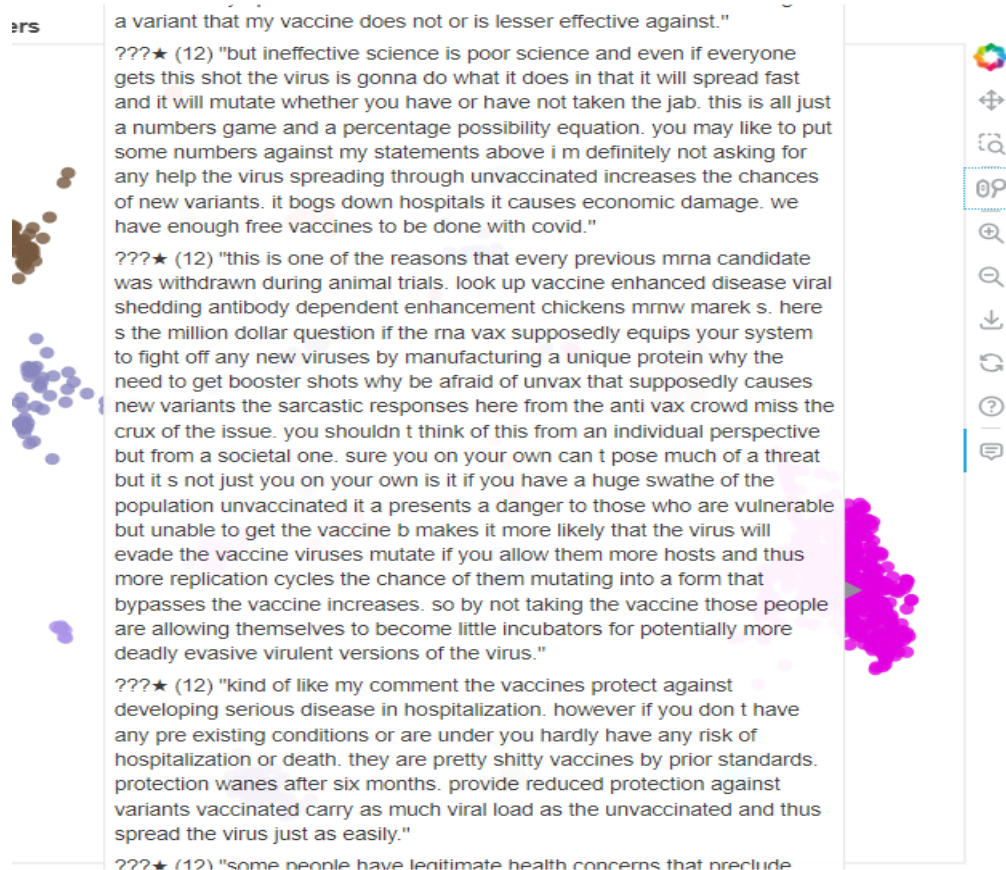

???★ (7) "i understand you were speaking of masks the logic of your seat belt analogy seems poorly delivered though and the clarifications you offered also fail to communicate anything i find convincing. sorry but masks are really limited protection in most cases if they protect at all i want to see peer reviewed science. simple discussion cannot convince me. thanks for your time but i no longer wish to continue. you can easily google this and see that it stays in the air for up to hours after exhalation."

???★ (7) "please please leave this shit to actual doctors. you have no idea what the fuck you're talking about. oh you mean the doctors that have flipped back and forth on the very thing we're talking about and clearly have no clue what they are talking about rather they are actually lying but still . anyway it's well established fact that wearing a mask can carry health risks. if you don't know this then that is on you get educated."

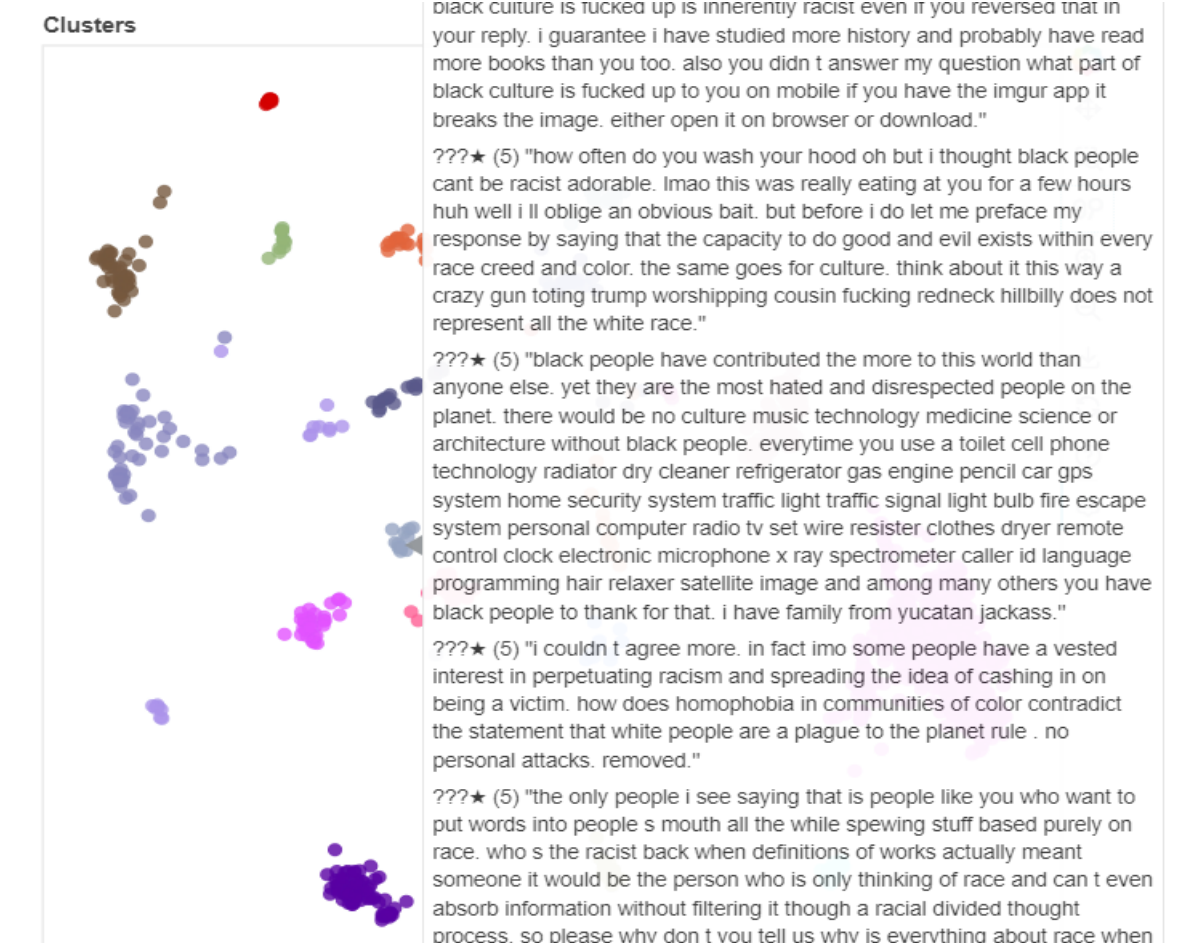

???★ (7) "or others can wear an n mask to protect themselves. i wear a mask when i go inside public places and businesses. i also sanitize after i get into my car before touching anything inside. after that its life as usual. my second job opened up this week and we are working outside of the

nim. wheres the conspiracy it sounds like this guy has no clue now an awards show works it s not like she won the super bowl of music. it s almost as if the grammys have many different categories dedicated to many different auditory mediums including spoken word one of the least promoted awards in the whole show."

???★ (13) "the title is also meaningless just buzz words. the media is fake the grammys are not the media. made up award every award is made up. rave about them i don t really think michelle obama getting a grammy made the front page anywhere. cia puppets sure michelle obama is a cia puppet or whatever talented artists it was an acclaimed book and that award typically goes to a prominent book released the previous year."

???★ (13) "fwiw this award has gone to someone in showbusiness or politics every year for like years now. jimmy carter has won it twice john stewart has betty white colbert carol burnett joan rivers michael j fox and carrie fisher all won this grammy since . janis ian winning in is actually an anomaly. she beat out bill clinton rachel maddow and ellen degeneres. the grammy was for best spoken word album."

16. Gold

are finite in time and they need some way to store value won t be diminished through time. to that end they need durable and scarce . the fact that there is a absolutely old on earth means it is scarce. you can mine more up o much. more gold can only be created in supernovae."

like gold because it cannot be counterfeited in any that s why people prefer it to artificial money like dollars ; or rubles. certainly energy can t be money because one d the universe is chock full of it energy. so yes everyone nd the way you store time is by exchanging time now in d of money. that money you can expend later so you don e later to get the things you want later ."

17. Religion – Unclear

of the sound the horns with horns and eyes angels
a red dragon with heads a beast with heads plagues
scarlet beast with heads mountains kings... did i miss
ust be god s favorite number. s now what is so important
